1. Introduction: Explanation of Parallel Processing and Comparability Testing

1.1 Purpose

This **Comparability Criteria and Process** document describes the general purpose and process of comparability and outlines the specific tests and procedures for demonstrating comparability of California Basic Educational Data System's (CBEDS) Professional Assignment Information Form (PAIF) data.

1.2 Document Format

This document includes a representation of the CBEDS PAIF form indicating areas where comparability tests will occur. Following the form is an annotated list of those tests, as well as the acceptable degree of variance for each test.

1.3 Intended Audience and Reading Suggestions

The primary audiences intended to read this document are:

1. CSIS-participating Local Education Agency (LEA) staff responsible for submitting the data that will be aggregated to meet state reporting requirements.
2. The California Department of Education (CDE) staff responsible for transitioning the CDE reporting system to the new State Reporting and Records Transfer System (SRRTS) and the CDE staff responsible for certifying that the data are comparable.
3. CSIS Program Office staff responsible for aggregating the CSIS data into files that are to be integrated by CDE with those of non-CSIS LEAs.

Readers may want to familiarize themselves with a number of previously published documents including the CSIS Program Charter, SRRTS Project Charter, SRRTS Use Cases, SRRTS System Architecture and SRRTS System Requirements Specification document. The reader may also wish to be familiar with the CSIS Data Dictionary, Code Tables and Transmission File Formats. All of the documents are on the CSIS web site, in the document library (<http://www.csis.k12.ca.us/library/>).

Other useful materials while reviewing this document include the *Administrative Manual for CBEDS Coordinators and School Principals, 2003 version*, which is available for viewing or downloading in .PDF format on the Internet at (<http://www.cde.ca.gov/demographics/coord/curriculum/AdminMan02.pdf>) and Comparability Criteria and Process for 2003 CBEDS Forms at (<http://www.cde.ca.gov/demographics/csis/documents.htm>).

For mapping of each test refer to the PAIF Aggregation rules also located at (<http://www.cde.ca.gov/demographics/csis/documents.htm>).

1.4 CDE-CSIS Comparability Process

1.4.1 Definition

Comparability is the process of checking and verifying that data submitted through CSIS is a reasonable match to the data submitted through the CDE data collection that CSIS is replacing. Comparability must be established by each LEA for each data collection that is transitioned to CSIS. Establishing comparability begins with the LEA making a parallel submission, representing a single time frame, of the relevant CDE data collection and CSIS. It is the intent that in most cases a single parallel submission will result in comparability. Once an LEA has established comparability with a data collection, the LEA submits that data only through CSIS.

As CSIS LEAs complete the transitioning of each selected data collection through the comparability process and become certified, the workload is expected to be decreased by removing requirements to directly report to the CDE.

1.4.2 Purpose

Comparability is the final “check” before an LEA discontinues a CDE data collection and moves to CSIS. The process serves several important purposes, including the following:

- For at least the next few years, data from both the traditional CDE data collection and CSIS will be merged to create a single set of statewide data. It is extremely important that the data can appropriately be merged and that CSIS-participating LEAs are neither disadvantaged nor advantaged by submitting their data only through CSIS. Comparability should ensure that it is appropriate to merge data from the two sources.
- In most cases the data submitted through CSIS will be collected in a different way than data submitted through the CDE data collection. A simple example is that enrollment from CSIS will be calculated electronically by adding student records based on each student’s enrollment start and end dates, while most CDE enrollment collections rely on a “head count” conducted at a school or district. Because methods of collection may vary widely, establishing that they may be used to represent the same information is critical.
- Most CSIS data originates in student records. The data are submitted through a local “data gate” and CSIS usually aggregates the data prior to transmitting it to CDE. There are numerous opportunities for errors in transmission and aggregation and although testing procedures will identify and correct most of these errors, the comparability process provides a final check on the accuracy of the data.
- Once an LEA is submitting data via student, staff and institution records through CSIS, it will be extremely difficult and resource intensive to “track down” and correct data population errors. Comparability should help ensure that the LEA and CSIS procedures are complete and accurate enough that data population errors do not occur.

1.4.3 Comparability Tests

Determination of comparability is based on applying a series of tests. Each test matches specific data fields, aggregated data, or calculations of data from the CDE data collection and CSIS using a published tolerance in matching the data. In some cases there may be no tolerances allowable in the data. The tests are developed by CDE, with review and input from CSIS and participating LEAs, and in the future should be published at least three months prior to the final date for parallel submission.

In most cases the tests will not be developed to match every data field of the CDE data collection with CSIS data, but will focus on data fields that are used frequently, have a special role in determining funding or policy, or are sensitive by nature. The amount of tolerance will also vary based on the use of the data.

Comparability tests may change from one CSIS data submission to another, based on experience using the tests, changes in the CDE data collection or the CSIS data dictionary, or general knowledge gained in the implementation of CSIS. The modified tests would be applied to future LEAs beginning comparability with a parallel submission. It is not the intent that an LEA that had successfully completed a parallel submission would have to repeat a parallel submission because of test changes.

1.4.4 Resolving Comparability Discrepancies

In general, discrepancies between CSIS and CDE data on an applied test may be resolved by being within tolerance range on that test. Discrepancies may also be resolved through a resubmission of CSIS data prior to published submission deadlines. For a specific data collection there may also be other methods of resolving discrepancies, as determined by CDE. The methods and institutions for resolving discrepancies from this data collection are in section 4 of this document.

1.4.5 The Comparability Agreement

The status of comparability is documented by a comparability agreement that is created for each LEA for each CDE data collection. The terms of comparability are included in each agreement and may be general in nature, specific to an LEA, and specific to CSIS. The agreement is signed by the LEA superintendent or designee, by CDE and either will be signed by CSIS or reference the role of CSIS. If an LEA does not adhere to the terms of the agreement, CDE may find it necessary to modify the terms of the agreement or even to revoke the agreement.

2. Test Items and Criteria Used in Determining Comparability for the Data Collection

PAIF Test Number	Test	Allowable Variances
PAIF -1	District number of certificated staff records must be comparable	1) variance of 5%; 2) variance of 2; 3) variance of 5 provided variance does not exceed 10%
PAIF -2	District number of teachers must be comparable	1) variance of 5%; 2) variance of 2; 3) variance of 5 provided variance does not exceed 10%
PAIF -3	District number of administrators must be comparable	1) variance of 5%; 2) variance of 2; 3) variance of 5 provided variance does not exceed 10%
PAIF -4	District number of pupil services staff must be comparable	1) variance of 5%; 2) variance of 2; 3) variance of 5 provided variance does not exceed 10%
PAIF -5a	District number of teachers with full credential must be comparable	1) variance of 3%; 2) variance of 1; 3) variance of 3 provided variance does not exceed 5%
PAIF -5b	District number of teachers with university internship must be comparable	1) variance of 3%; 2) variance of 1; 3) variance of 3 provided variance does not exceed 5%
PAIF -5c	District number of teachers with district internship must be comparable	1) variance of 3%; 2) variance of 1; 3) variance of 3 provided variance does not exceed 5%
PAIF -5d	Number of teachers with pre-intern credential must be comparable	1) variance of 3%; 2) variance of 1; 3) variance of 3 provided variance does not exceed 5%
PAIF -5e	Number of teachers with emergency permit must be comparable	1) variance of 3%; 2) variance of 1; 3) variance of 3 provided variance does not exceed 5%
PAIF -5f	Number of teachers with waiver of credential must be comparable	1) variance of 3%; 2) variance of 1; 3) variance of 3 provided variance does not exceed 5%
PAIF -6a	District enrollment in English classes must be comparable	variance of 15%
PAIF -6b	District enrollment in math classes must be comparable	variance of 15%
PAIF -6c	District enrollment in science classes must be comparable	variance of 15%
PAIF -6d	District enrollment in social science/humanities classes must be comparable	variance of 15%
PAIF -6e	District enrollment in foreign language classes must be comparable	variance of 15%
PAIF -6f	District enrollment in advanced placement classes must be comparable	variance of 15%

PAIF Test Number	Test	Allowable Variances
PAIF -6g	District enrollment in International Baccalaureate classes must be comparable	variance of 15%
PAIF -6h	District enrollment in fine arts classes must be comparable	variance of 15%
PAIF -6i	District enrollment in health/physical education classes must be comparable	variance of 15%
PAIF -6j	District enrollment in self-contained classes must be comparable	variance of 15%
PAIF -6k	District enrollment in other classes must be comparable	variance of 15%
PAIF -7a	District number of English classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7b	District number of math classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7c	District number of science classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7d	District number of social science/humanities classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7e	District number of foreign language classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7f	District number of advanced placement classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7g	District number of International Baccalaureate classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7h	District number of fine arts classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7i	District number of health/physical education classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7j	District number of self-contained classes must be comparable	1) variance of 10%; 2) variance of 2
PAIF -7k	District number of other classes must be comparable	1) variance of 10%; 2) variance of 2

4. Data Submission and Comparability Process

4.1 Overview of Fall 2003 Data Submission and Comparability Process

The table below is an overview of the key activities for LEAs, CSIS and CDE staff participating in the Fall 2003 parallel submission process of CBEDS and CSIS data. A goal of this process is certification of the LEA to discontinue submission to CDE of CBEDS beginning in 2003 and to submit data only through CSIS. Following the table are the key dates by which the LEA must make submissions in order to remain eligible for comparability in 2003.

On the next page is a more detailed listing of these same key activities. The detailed listing should be helpful for those actually working on comparability.

Earliest and Latest Dates (as applicable)		Key Activities for Comparability	
10/01/03	10/27/03	1	LEA submits traditional CBEDS data to the CDE (Program Area)
10/06/03	12/05/03	2	LEA submits initial set of CSIS data to the CSIS office and CSIS works with the LEAs to review and clean up data for transmission to the CDE
	12/05/03	3	Last day for LEA to certify (Superintendent Role) initial set of data
	12/12/03	4	Last day for CDE to receive from CSIS the initial set of data files from any LEA participating in the 2003 Fall submission comparability cycle
11/14/03	2/06/04	5	The CDE receives traditional data and CSIS comparability data, and generates comparability reports. LEAs, CDE, and CSIS work to resolve comparability discrepancies
11/14/03	1/30/04	6	LEA reviews traditional CBEDS data posted on CDE pre-certification web-site
	1/30/04	7	Last day for LEA to certify (Superintendent Role) final CSIS data modifications to CSIS Office to resolve comparability discrepancies
	2/06/04	8	Last day for the CDE to receive the following: 1. Final traditional CBEDS modifications; 2. CSIS data submissions; and 3. Accommodation proposals
11/14/03	3/12/04	9	The CDE makes final comparability determinations and notifies LEA and CSIS

4.2 Key Dates for LEAs:

- **October 27, 2003** – Due date for LEA to submit CBEDS data to CDE
- **December 5, 2003** – Deadline for LEA to certify (Superintendent Role) transmission of complete set of data files to CDE. *(LEAs not meeting this deadline will be dropped from the Fall 2003 comparability process.)*
- **January 30, 2004** – Deadline for LEA to certify (Superintendent Role) final CSIS data modifications to CSIS Office to resolve comparability discrepancies. *(LEAs not meeting this deadline will be dropped from the Fall 2003 comparability process.)*

- **February 6, 2004** – Deadline for LEA to submit all final CBEDS modifications and accommodation proposals to resolve comparability discrepancies. *(LEAs not meeting this deadline will be dropped from the Fall 2003 comparability process.)*

4.3 Detailed Steps for Fall 2003 Data Submission and Comparability Process

The table below is based on the key activities in the overview on the previous page. The key activities are repeated in bold, and followed by more detailed steps as appropriate. This more detailed listing is provided particularly for LEAs, to help them understand the process and know what to expect.

Earliest and Latest Dates (as applicable)		Key Activities and Detailed Steps for Comparability	
10/01/03	10/27/03	1	LEA submits traditional CBEDS data to the CDE (Program Area)
10/06/03	12/05/03	2	LEA submits initial set of CSIS data to the CSIS office and CSIS works with the LEAs to review and clean up data for transmission to the CDE
Iterative process - advantage to the LEA to start early		2a	CSIS conducts validation checks to ensure files are complete, all required fields are populated, all entries are valid, and conducts other checks similar to CBEDS edit checks
		2b	CSIS generates CDIF, SIF, PAIF reports for LEA review
		2c	CSIS works with LEA to resolve errors
		2d	LEA resubmits data if necessary
10/06/03	12/05/03	2e	LEA reviews CDIF, SIF, PAIF reports, and if satisfied, the superintendent approves the transmission of the data to CDE
	12/05/03	3	Last day for LEA to certify (Superintendent Role) initial set of data
	12/12/03	4	Last day for CDE to receive from CSIS the initial set of data files from any LEA participating in the 2003 Fall submission comparability cycle
11/14/03	2/06/04	5	The CDE receives traditional data and CSIS comparability data, and generates comparability reports. LEAs, CDE, and CSIS work to resolve comparability discrepancies
		5a	CDE receives the data and runs it through an automated system to create the comparability reports, one for each of the three CBEDS data collections. <i>(Each report will provide the data for every comparability test, identify the tests that are not passed, and provide school-level data for any test not passed.) [See step 8 below for last date to submit CSIS data modifications that will be subsequently reported by CDE.]</i>
		5b	CDE staff review the reports, create a cover summary report to note any special circumstances or information about the submission, and email the report and cover to both CSIS and the LEA. <i>(See Appendix B, 6.2.3)</i>
11/14/03	1/30/04	6	LEA reviews traditional CBEDS data posted on CDE pre-certification website

Earliest and Latest Dates (as applicable)		Key Activities and Detailed Steps for Comparability	
Iterative process – advantage to LEA to start early		6a	LEA reviews the package, focusing on comparability tests that have not been passed <ul style="list-style-type: none"> • If LEA believes CSIS data processed incorrectly, LEA contacts CSIS • If LEA believes CBEDS data processed incorrectly, LEA contacts CDE • If LEA believes the comparability discrepancies are result of own inaccurate reporting of CSIS or CBEDS, the LEA may use any combination of the following resolution actions (<i>described in Section 5</i>): <ul style="list-style-type: none"> ○ Resubmit CSIS data to CSIS ○ Submit modifications to CBEDS data to CDE ○ Submit a draft accommodation proposal to CDE
		6b	LEA decides how to resolve discrepancies and makes appropriate submissions
		6c	CSIS processes any resubmitted data and transmits it to CDE
		6d	CDE reviews resubmitted data, CBEDS modifications and draft accommodation proposals throughout this submission window, emailing responses to CSIS and the LEA. (<i>The earlier an LEA submits data and resolutions, the more opportunity for CDE and CSIS feedback and assistance.</i>)
	2/06/04	6e	Last day to submit draft accommodation proposal and effect CDE feedback before final proposal is due
	1/30/04	7	Last day for LEA to certify (Superintendent Role) final CSIS data modifications to CSIS Office to resolve comparability discrepancies
	2/06/04	8	Last day for the CDE to receive the following: 1. Final traditional CBEDS modifications; 2. CSIS data submissions; and 3. Accommodation proposals
11/14/03	3/12/04	9	The CDE makes final comparability determinations and notifies LEA and CSIS
		9a	CDE conducts final review of data and materials resolving discrepancies. (<i>As soon as any draft accommodation proposal is ready for approval, CDE will notify the LEA and request a final proposal with the LEA superintendent's signature. CDE will work with CSIS and the LEA through any minor omissions or problems with accommodation proposals during this time frame. If there are significant problems it will not be possible to certify comparability and the LEA will need to participate in parallel submission in the Fall of 2003.</i>)
		9b	CDE emails LEA and CSIS a final report, with notification that comparability is complete and the LEA will be certified, assuming signature of the comparability agreement
		9c	CDE sends final letter to LEA and comparability agreement to be signed by superintendent
		9d	LEA superintendent signs comparability agreement and returns it to CDE

4.4 Identifying Schools for Fall 2003 CSIS Submission

The Fall 2003 CSIS data submission is used to provide California Basic Educational Data System (CBEDS) data to the California Department of Education (CDE). This includes both production data from those local education agencies (LEAs) that have been certified for submission only through CSIS and comparability data from those LEAs that are participating in parallel submission in order to be certified for 2003.

4.4.1 Which Schools Are Required to Report through CSIS

CDE and CSIS require that all schools within the LEA report through CSIS, except for charter schools. Charter schools in districts participating in CSIS state reporting have the option to report their data through the traditional method. See the “Non-Participating Charter Schools” section of this document (below) for more information. *Maintaining District Information at the “CDE CDS Database”*

The CDE maintains district information on the Internet at the CDE County District School (or CDS) website. All California LEA’s are required to maintain current district information at the CDE. LEA’s participating in CSIS state reporting must visit the CDE website prior to each submission cycle to verify that the district information in the CDE database is current. See Appendix C for more information on how to verify and maintain this information.

Note: Both the CDE and CSIS use this information to process your CSIS data through SRRTS. Failure to maintain current information in the CDE database may result in the delay of processing your district data to the CDE.

4.4.2 Maintaining the “Expected Schools” List on the CDE web site

The Educational Demographics office maintains an “expected schools list” on the Internet for both CSIS participating and non-participating LEA’s. This information identifies which schools are required to submit CBEDS and Language Census data. The information also identifies which charter schools are expected to submit through CSIS, and which charter schools are expected to submit data through the traditional method. LEA’s participating in CSIS state reporting must visit the Expected Schools website prior to each submission cycle to verify that the district information in the Educational Demographics database is current. See the “Verifying and Updating LEA information at the CDE” section below for more information on how to verify and maintain this information.

Note: Both the CDE and CSIS use this information to process your CSIS data through SRRTS. Failure to maintain current information in the CDE database may result in the delay of processing your district data to the CDE.

4.4.3 Participating Charter Schools

While not all charter schools within an LEA are required to participate in CSIS state reporting activities, those designated as “participating” by the LEA must submit their data through CSIS.

4.4.4 Non-Participating Charter Schools

In recognition of the unique nature of charter schools, CSIS and CDE have provided an option for a charter school in a CSIS LEA to forego participation in CSIS state reporting activities, based on a joint decision between the LEA and the charter school. This option is not available for any other type of school.

An LEA with one or more non-participating charter schools must make specific agreements with CSIS and CDE about the identification of these schools prior to data submission. For any non-participating charter school, the LEA must continue to submit all non-participating charter school(s) data through the traditional method, even if the LEA is certified for CSIS submission only. CDE will maintain contact with that LEA in order to receive data for the non-participating charter school.

Note: If a CSIS LEA does nothing, all charter schools within the district will appear on the list of expected schools, meaning they are required to submit data via CSIS.

If a CSIS LEA has a new charter school that does not wish to participate in CSIS, or a continuing charter schools that wishes to discontinue CSIS participation, the LEA should notify CDE in a letter or memorandum with a copy to CSIS. The letter should identify the charter school(s) by name, corresponding CDS code(s), and should state that the school’s data will be reported through the traditional data collection method. Address the letter to:

Education Data Office
California Department of Education
Attn: CDE-CSIS Administrator
P.O. Box 944272
Sacramento, CA 94244-2720

Address a copy of the letter to the CSIS Office:

California School Information Services
Attn: Client Services Director
770 L Street, Suite 1180
Sacramento, CA 95814

If a CSIS LEA has a previously identified non-participating charter school and there is a decision to report that school’s data through CSIS, the LEA should also send a letter or memorandum, to that effect, to the above addresses.

4.4.5 Verifying and Updating LEA information at the CDE

The CDE maintains information about each district in two places: the CDS database and the Education Data Office “CDE CSIS” database. Information in these two locations allows the CDE and CSIS to process your data submissions, and “integrate” your CSIS submitted data with the other data from non-CSIS districts. The “integrated” data is used for state reporting purposes.

4.4.6 Maintaining LEA information in the CDE - CDS data base

Over 200 new public schools open every year. Submission of data for a school requires use of a valid 14-digit CDS code. CDS codes are assigned by CDE and it is very important that an LEA request a code as soon as the LEA knows that a new school will open. Additionally, if the status of a school or district changes, the responsible LEA must promptly notify the CDE. Examples of changes in school or district status include:

- A new school opens for the first time
- A school closes
- A school changes from a “pending” status to “open” status
- A district “type” changes (e.g., from elementary to unified)

Steps to verify district and school information include:

1. Visit the CDS web page (<http://www.cde.ca.gov/schooldir/>) and select your district from the pull down menus.
2. Review your district and school information.
3. If changes are required, select one of the three following options and submit the changes:
 - a. Complete the Webform located at <http://www.cde.ca.gov/cdscodes/> and fax it to (916) 327-0195.
 - b. Complete the Webform located at <http://www.cde.ca.gov/cdscodes/> and mail it to

California Department of Education
Attn: CDS Administrator
Educational Demographics Office
P.O. Box 944272
Sacramento, CA 94244-2720.
 - c. Send an e-mail to cdsadmin@cde.ca.gov with the information from the Webform located at located at <http://www.cde.ca.gov/cdscodes/>.

Verify that the changes have been made before the submission cycle begins.

4.4.7 Maintaining “Expected School” information in the EDO “CSIS” data base

The Education Data Office works closely with the CSIS office. Each agency uses an “expected schools list” to verify that all of the data are submitted for each participating district. Any non-participating charter schools will be listed on the web page for each LEA.

Steps to verify CBEDS “expected schools” information include:

1. Visit the CBEDS coordinator web page at
http://data1.cde.ca.gov/dataquest/coord_login.asp
2. Key in your district password. (Passwords can be obtained by calling (916) 327-0219).
3. Review your district and school information.
4. If changes are required, select one of the two following options and submit the changes:

Phone: (916) 324-6738

E-mail: edo@cde.ca.gov

5. EDO staff will make the changes to the database. Changes will be viewable the following business day (barring any unforeseen complications).
6. Follow up and confirm that the changes have been made.

5. Methods for Resolving Comparability Discrepancies

When the comparison of the CSIS and CBEDS data creates a discrepancy that is outside the accepted tolerance range, there are three methods to resolve or successfully address the discrepancy. The following three methods may be used in any combination:

- Correct and resubmit CSIS data to the CSIS Office;
- Submit CBEDS modifications to CDE; or
- Submit an Accommodation Proposal to CDE.

5.1 To Resubmit CSIS Data

Please work directly with the CSIS Office for instructions and support in submitting and resubmitting data.

5.2 To Submit a CBEDS Modification

All modifications to CBEDS submissions must be made prior to February 6, 2004. To submit a CBEDS modification after already submitting CBEDS data through the CBEDS – Data Entry Assistant (CBEDS-DEA) software, use the following process.

Using the CBEDS software, take the following steps:

1. Make needed data corrections in the CBEDS DEA software
2. Run the “Remaining Errors/Warnings Report” to ensure that no errors were introduced by the data corrections. Correct any “errors” if necessary. Also use the report to determine if new “warnings” were introduced by data corrections. If new “warnings” were created, check to make sure that the data is correct.
3. Once all errors are resolved, use the “File”, “Submit data (via Internet)” option to send your corrected data file to CDE. If you are prompted with “These files have already been submitted to CDE. Do you wish to resubmit your data and overwrite the original files?”, respond with a “Y”es.
4. CDE data files for your district will be updated with your new submission.
5. Do not use paper submissions to make data changes.
6. Resubmission of data will not be available after February 6, 2004.

5.3 To Submit an Accommodation Proposal

An Accommodation Proposal is prepared by the LEA, is in the form of a letter on district letterhead, and the final version is to be signed by the LEA superintendent. Since an Accommodation Proposal is only necessary if there are discrepancies between CSIS and CBEDS data, the proposal should include enough information to give reasonable assurance that when future data are submitted through CSIS, the data will be complete, accurate, and appropriate to use for the wide range of state reporting. While it is understood that the content of proposals will vary from one LEA to another, based on the nature and cause of the discrepancies, some general guidelines follow:

- The proposal should briefly describe the discrepancy and why it has occurred, and the explanation should make sense in terms of the actual data from both CSIS and CBEDS.
- For each discrepancy the proposal should clearly state whether the CSIS data are accurate or the CBEDS data are accurate.
- If the LEA does not believe that the current CSIS data are accurate, the proposal should explain what actions the LEA will take to ensure that the future CSIS data will be accurate. If at all possible, some type of evidence of the change should be included (such as samples of former and revised mapping schemes to resolve mapping errors, or internal directives to correct data population practices).
- Organize the proposal according to the comparability test(s) where the discrepancy exists. A simple format of the test label (such as PAIF-1 or PAIF-5a) followed by the narrative explanation and resolution actions will facilitate review. If the same explanation and resolution is applicable to multiple tests, these tests may be grouped together in the label.

5.4 Submission of a Draft Proposal

Since the final Accommodation Proposal must be submitted under the signature of the LEA superintendent, we strongly advise that the LEA submit a draft proposal for review at least two weeks prior to the final submission date. The draft should be sent to CDE with a copy to CSIS. The draft may be submitted by the person in the LEA who is working with CSIS data and it should be sent by email, using the contact information below.

We also advise that a single accommodation proposal be drafted for the LEA, rather than separate proposals for individual tests. This is for the sake of efficiency for all of us involved.

As soon as CDE receives a draft proposal we will review it and respond. Our plan is to use email to respond, because it will make our turnaround faster, and because it is easier to keep multiple parties informed on the status of issues. Each response email will go to the LEA Contact with copies to the consortia fiscal agent and CSIS.

Sand Dunes Unified School District

Draft Accommodation Proposal for Fall 2003 Comparability

CDIF Discrepancies

CDIF 3a, 3b, 3c

The CBEDS data are accurate. The Adult Education staff were coded incorrectly in CSIS. The corrections have been made. Future submissions will reflect the accurate codes and therefore counts will be accurate as well.

CDIF 7

The CSIS data are accurate. The CBEDS data reflects the number of interdistrict permits approved by the district. The CSIS data reflects the number of interdistrict students actually enrolled in the schools.

SIF Discrepancies

SIF 2, 4b, 4e, 4g, 4h

The CSIS data are accurate. This was caused by a clerical error at Sand Dunes Elementary School. During the manual data collection process the enrollment clerk entered five students as multiple ethnicity as well as the students' enrolled ethnicities. This resulted in inflated CBEDS enrollment data and counts for the numbers of Asian, Hispanic, and White students. This also caused double counting for those students reported with multiple ethnicities.

SIF 10b

The CSIS data are accurate. One of our advanced placement calculus courses was coded as 2415 in CBEDS for all high schools in the district. It was correctly coded for the CSIS submission.

SIF 13d

The CSIS data are accurate. Surf's Up Continuation School students were not recorded correctly in the alternative education section of CBEDS. They were correctly coded for CSIS.

SIF 15a, 15b, 15c, 15d

The CBEDS data are accurate. The computer inventory for CBEDS was provided by the school site technology coordinator while district staff provided counts based on initial computer purchases by the district for CSIS submission. The district and site inventory databases now match. Site computer purchases are now being routed through the district technology department

in order to maintain consistent inventories between the district office technology department and school sites. This will eliminate future discrepancies.

PAIF Discrepancies

PAIF 3

The CBEDS data are accurate. Curriculum leaders were coded 0303 at the district level for CSIS. Since they are teaching staff they should have been coded with Department Chair codes for their appropriate subject area leadership. They were correctly coded for CBEDS. District HR staff will not report these as district level positions in the future.

PAIF 5a

The CSIS data are accurate. One teacher at Seahorse Elementary and another at Sand Dollar High were counted as fully credentialed in our original CBEDS submission. They were correctly coded with emergency credentials for the CSIS data submission.

PAIF 6a

The CSIS data are accurate. In our original CBEDS submission, we coded the reading support teachers (partially funded by Miller Unruh) to assignment code 2120, reporting enrollment at each elementary site because the teachers serve the whole site and enrollment was required for assignment code 2120. They should have been coded 2180 with no students assigned as they were reported in CSIS.

PAIF 6j

The CSIS data are accurate. The RSP teachers reported enrollment according to their caseloads. The regular classroom teachers for these students did not count them in their regular classrooms for CBEDS as their schedules reflect.

6. Appendices

6.1 Appendix A – PAIF Comparability Test Mapping Guide

Appendix A maps individual test numbers to the file record layout and the corresponding CBEDS form. **The CDE Technology Services Division (TSD) is the intended audience for this appendix.** General and Detail records will be related by a combination of several keys, e.g. DID, LAST_NAME, FIRST_NAME, M_I.

Informational Items

Data on the following informational items are presented in the PAIF Main Report. These informational items are **not** used for determining comparability and, therefore, do not display tolerance criteria. They report only the CBEDS and CSIS data for each particular informational item. The informational items are included to facilitate comparability.

6.1.2 PAIF Detail Report

The PAIF Detail report is comprised of the school level equivalent for all PAIF Test numbers in section 6.1.

6.2 Appendix B – PAIF Comparability-Related Reports (CPACT vs. CBEDS; timing, purpose)

LEAs participating in the CBEDS 2003 comparability submission cycle benefit from understanding as soon as possible how the CBEDS data they submit to CDE through the traditional submission method must compare to the data submitted through CSIS. The CDE-CSIS Data Integration Project (DIP) team and the CDE Educational Demographics Office have developed a plan to provide the LEAs informational comparability reports at two different points in the submission cycle. Both reports will have a similar “look and feel.” However, because they are produced at different points during the comparability submission cycle, they will contain different information.

The first report will be available in the CBEDS data entry software (*CBEDS Comparability Preview Report*). LEA staff can run this report as soon as data have been entered or imported into the CBEDS software. This report displays the actual CBEDS values for each of the comparability test items for the selected CBEDS data collection as well as the “range” the CSIS data must fall within in order to meet comparability tolerances. This report will also display the actual CBEDS values for several “informational” items. These informational items reflect the district’s CBEDS values for data fields that are not being assessed in the comparability test criteria but may be of interest to the LEA staff. LEA staff can print out the *CBEDS Comparability Preview Report* and use it to compare against the CSIS data as they prepare to make the fall 2003 CSIS submission.

The second report will be created and distributed by the CDE (*CDE-CSIS DIP Automated Comparability Processing – LEA Main Report*). The CDE-CSIS DIP team produces this report when validated data is received at CDE from CSIS. For each comparability test item, this report displays the actual CBEDS value, the actual CSIS value, the variance between the two, and the tolerance (accepted variance between the two values). If the test item did not fall within the accepted tolerance, the report will also display an outcome of “Fail” (failed to demonstrate comparability). Similar to the preview report, this report will also display the actual CBEDS and CSIS values on “informational” items. Finally, the *Automated Comparability Processing Report* will also produce a detail report that displays the CBEDS and CSIS values for each school for each comparability test item that fails to demonstrate comparability. This detail report will be provided to assist LEA staff research why the CBEDS and CSIS values are not comparable for a particular test item.

The *Automated Comparability Processing* and associated detail report will be generated and distributed whenever the LEA submits revised data through CSIS to CDE during the comparability submission cycle.

Additional information on these reports will be distributed to the FCMAT/CSIS team and the CSIS-participating LEAs prior to the start of the CBEDS 2003 comparability submission cycle.

6.5 Appendix E – Suggested Checklist for use by LEA CSIS and CBEDS Coordinators

LEA Comparability Checklist for CSIS/CBEDS Coordinators Fall 2003 Parallel Submission for CBEDS

The items on this checklist are based on the most common data discrepancies as experienced by LEAs during comparability for the Fall 2003 Parallel Submission Cycle. This checklist is very general and is by no means comprehensive. LEA CBEDS coordinators and LEA CSIS coordinators should use it together, in order to reconcile and/or validate counts to yield more comparable data. Student Information Systems vendor specifications will further determine the extent by which any of these guidelines might be needed.

Checks to avoid some common CDIF discrepancies:

- ☐ Classified staff is only to be counted once. If classified employees have already been counted at a school site and accounted for on a SIF, do not include them at the district office. All staff counts are unduplicated counts.
- ☐ GATE count is of students identified as eligible for GATE, not necessarily participating in a GATE program
- ☐ Service Learning and Community Service refer to local board policies regarding these programs, not programs in place.

Checks to avoid some common SIF discrepancies:

- ☐ Every charter school that received its charter from the district is considered a CSIS participant unless the district has a letter on file with CDE and CSIS designating the charter school as a CSIS non-participant
- ☐ Reconcile aggregate counts for student ethnicity and check for proper use of coding and mapping for multiple ethnicities (multiple ethnicities are populated separately for CSIS)
- ☐ ROC/P classes are not to be coded as Voc. Ed. These data are used to meet federal reporting requirements for Voc.Ed. which do not include ROC/P.

Checks to avoid some common PAIF discrepancies:

- ☐ Reconcile teacher credential reporting with credentials on file in HR system
- ☐ Check course coding to ensure match with course descriptions. This can be easily overlooked with Advanced Placement (AP) classes in the schedule
- ☐ Reconcile PAIF forms with the master schedule
- ☐ Distinguish self-contained assignments from more than one subject taught by the same teacher or core humanities classes
- ☐ Check Resource Teacher PAIFs to ensure students they might report are actually scheduled with them. Similar checks should be made for all credentialed support personnel. Support teachers who do not have students scheduled with them in the master schedule should use non-teaching assignment codes.

Comparison check can be made by visiting the CBEDS Pre-certification Review website:
